PART 2 — Platform Algorithm Deep Dive (2026)

What the algorithm actually measures and weights in each platform

TikTok Algorithm — Key Signals (2026)

Content passes through 3 exposure pools: 200 → 2,000 → 20,000 → For You Page. Each pool requires 80%+ completion rate to advance to the next. Your platform's 9:16 + ASS captions maximise dwell time at every stage.

Signal	Weight	How Threadforge Hits It
Completion rate (95%+ unlock 4x boost)	★★★★★	≤15s scripts loop + captions keep eyes on screen
Curiosity gap in first 1.5 seconds	★★★★★	Hook scene uses 'reveal/shock/unbelievable' triggers → gen4.5
Comment velocity (questions + polls)	★★★★■	'Who won?' and 'Comment your answer' CTAs in every script
Loop design (seamless 15s repeat)	★★★★■	CTA frame visually connects back to hook → re-watch counts
Sound selection (trending vs original)	★★★██	ElevenLabs narration = original audio; add trending in CapCut

Instagram Reels Algorithm — Key Signals (2026)

Signal	Weight	How Threadforge Hits It
Shares to DMs (10x over likes)	★★★★★	Before/after and trailer formats drive DM-shares instinctively
Save rate above 3% = viral trigger	★★★★★	Verbal 'save this' CTA + educational content → save reflex
Trending audio on Explore	★★★★■	Export video, add trending audio in CapCut/Reels editor
First frame as cover (click-through)	★★★★■	Hook scene gen4.5 = cinematic first frame every time
20-30s sweet spot completion	★★★██	Scripts 3 and 10 targeted at 15-20s for max completion

YouTube Shorts Algorithm — Key Signals (2026)

Signal	Weight	How Threadforge Hits It
--------	--------	-------------------------

80%+ average view duration → push to subs	★★★★★	45s Shorts = exact platform cap; dense content = re-watch
Re-watch triggers (rapid info density)	★★★★★	'3 secrets in 30s' and '7-day' formats cause instant re-watch
Captions + text overlays	★★★★■	ASS auto-captions generated on every video natively
Educational shelf life (12-18 months)	★★★★■	Stoic/AI secrets content ranks in search long-term
Swipe-to-subscribe (value in first 5s)	★★★██	Hook always gen4.5 = cinematic first impression

PART 3 — 10 Production-Ready Scripts

Copy-paste ready · Runway prompts embedded · Frame-by-frame captions included
