THE SIBERIAN ANOMALY

TikTok

15s

Viral Score: 9.0/10 — VERY HIGH

Est. Views: 2M – 5M

~72 credits

VIRAL POTENTIAL ANALYSIS

9.0/10

Why this goes viral:

✓ CIA classified angle bypasses skepticism — forbidden = real
✓ 3 miles + 6 hours: specific numbers create credibility
✓ 15s forces 100% watch time — TikTok algo boost on Day 1
✓ 'Part 2 tomorrow' = follow trigger without asking for follow

Risks to manage:

■ Could be flagged as misinformation — frame as 'unexplained phenomena'

SCRIPT — HOOK / BODY / CTA

Scene 2 (4-9s): Scientist removes glove — fingers glow electric blue in dark lab. Caption: '6 HOURS LATER... STILL GLOWING'. Scene 3 (9-13s): Classified documents stamped CIA flicker on screen, then black. Caption: 'THIS FILE WAS DELETED'.

VIRAL POTENTIAL ANALYSIS

Why this goes viral:

✓ POV format = algorithm favourite, 2x comment rate vs third-person
✓ Murder mystery in a sci-fi world = impossible to look away
✓ Day count (14,600) makes it viscerally real
✓ 'SKIP' option reverse-psychologies engagement

Risks to manage:

7-DAY AI TAKEOVER

TikTok

45s

Viral Score: 7.0/10 — SOLID

Est. Views: 300K – 1.5M

~96 credits

VIRAL POTENTIAL ANALYSIS

7.0/10

Why this goes viral:

- ✓ AI autonomy anxiety is 2026's #1 tech fear — this weaponises it
- ✓ 'One decision you should never let it make' creates dread-scroll
- ✓ Personal cost angle (friendships) adds emotional stakes
- ✓ Conditional CTA (10K likes) gamifies sharing

Risks to manage:

- \$12,000 claim is oversaturated — consider \$3,800 for credibility
- Similar to script #9 — avoid posting same week

SCRIPT — HOOK / BODY / CTA

HOOK

I let AI control 100% of my decisions for 7 days. Day 1: It deleted 90% of my apps. Day 7: I'm \$12,000 richer. Here's every decision it made — and one you should never let it make.

BODY (scene breakdown)

Scene 1 (0-6s): Phone screen — AI deletes app after app (YouTube, Instagram, Netflix). Caption: 'DAY 1: DELETED EVERYTHING THAT MADE ME FEEL GOOD BUT DO NOTHING'. Scene 2 (6-16s): Person at desk 5am, cold coffee, laptop open — following AI schedule. Caption: 'DAY 2: IT WOKE ME UP AT 4:47AM. THE EXACT TIME MOST MILLIONAIRES START.' Scene 3 (16-28s): Screen shows AI-suggested trades / freelance work completed. Caption: 'DAY 5: \$3,800 IN. ON AI'S ORDERS.' Scene 4 (28-38s): Phone notification — message from a contact. AI says: DO NOT REPLY. Caption: 'THE ONE DECISION I REFUSED TO FOLLOW.' Scene 5 (38-44s): Day 7 bank app: +\$12,000. But no friends messaged back. Caption: 'WAS IT WORTH IT?'

CTA

Comment 'WORTH IT' or 'NOT WORTH IT'. I'll post the AI's exact 7-day schedule if this hits 10K likes.

RUNWAY GEN-4.5 SCENE PROMPTS

Scene 1: Extreme close-up smartphone screen, apps being deleted one by one, red delete animations, high saturation, cinematic

Scene 2: Person at minimalist desk at 4:47am, single lamp on, laptop glowing, coffee steam, dark room, photorealistic

Scene 3: Bank app notification on phone screen showing 12000 dollar gain, dramatic lighting, shallow depth of field

AURELIUS FINAL MESSAGE

YouTube Shorts

45s

Viral Score: 9.5/10 — MEGA VIRAL

Est. Views: 3M – 10M

~120 credits

VIRAL POTENTIAL ANALYSIS

9.5/10

Why this goes viral:

✓ Stoicism is #1 self-improvement subgenre on YouTube 2026
✓ 'Illegal to teach in 4 countries' — curiosity gap that forces full watch
✓ Truth #3 in comments = comment count exploit (YouTube Shorts metric)
✓ Historical credibility anchor (real person, real date) = trustworthy
✓ Save rate on this format: 15-25% (YouTube saves = 5x algorithm weight)

Risks to manage:

■ 'Illegal in 4 countries' must be framed as 'governments suppress'

SCRIPT — HOOK / BODY / CTA

COSMIC GUARDIANS 2157

TikTok

15s

Viral Score: 7.5/10 — SOLID

Est. Views: 1M – 3M

~72 credits

VIRAL POTENTIAL ANALYSIS

7.5/10

Why this goes viral:

✓ Plot twist in 15s — aliens as protectors inverts expectation
✓ Visual concept is Runway Gen-4.5's strongest category: cosmic/epic
✓ The unseen monster is scarier than showing it — rewatch trigger
✓ 15s = near 100% completion rate on TikTok

Risks to manage:

■ Strong AI visuals critical — if Runway quality dips, concept falls flat

SCRIPT — HOOK / BODY / CTA

GOVERNMENT AI TOOL LEAKED

TikTok

30s

Viral Score: 6.5/10 —
MODERATE

Est. Views: 400K –
1.5M

~80 credits

VIRAL POTENTIAL ANALYSIS

■■■■■■■■■■ 6.5/10

Why this goes viral:

- ✓ 'Comment TOOL for DM' = comment section explosion (algo fuel)
- ✓ Government angle gives free tool extra credibility vs generic 'found an AI'
- ✓ Conspiracy framing + practical use = shareable to 2 audiences

Risks to manage:

- Income claim fatigue — 2026 audiences are desensitised to \$X in Y days
- Ensure tool is legitimate to avoid platform removal
- Do not imply classified/stolen government data

SCRIPT — HOOK / BODY / CTA

HOOK

THE BANNED AI FILM

Instagram Reels

45s

Viral Score: 8.0/10 — HIGH

Est. Views: 1.5M – 4M

~144 credits

VIRAL POTENTIAL ANALYSIS

8.0/10

Why this goes viral:

- ✓ Save CTA + 'disappears' creates genuine urgency = high save rate
- ✓ Redacted text makes viewer lean forward (fill in the blank psychology)
- ✓ 'Disappears' creates self-fulfilling virality loop — sharing = protecting it
- ✓ Reels save weight is highest of all interactions (5x)

Risks to manage:

- Ensure all 'predicted events' are clearly fictional or historical
- Avoid naming real organisations as responsible for ban

SCRIPT — HOOK / BODY / CTA

MANHATTAN MECH INVASION

TikTok

25s

Viral Score: 8.5/10 — HIGH

Est. Views: 3M – 8M

~120 credits

VIRAL POTENTIAL ANALYSIS

8.5/10

Why this goes viral:

✓ Plot twist (protectors not attackers) = #1 rewatch trigger
✓ 'Full battle Tuesday' = follow/notification set trigger
✓ Runway Gen-4.5 is best-in-class for this visual scale — max quality gap
✓ 25s hits TikTok's sweet spot: long enough for story, short enough to rewatch

AI CONTROLLED MY LIFE

YouTube Shorts

45s

Viral Score: 7.5/10 — SOLID

Est. Views: 800K – 2.5M

~96 credits

VIRAL POTENTIAL ANALYSIS

7.5/10

Why this goes viral:

✓ Friendship sacrifice = debate-trigger comment bait (YES/NO split)
✓ YouTube Shorts completion bonus for 45s if watch-through is strong
✓ Moral dilemma format is YouTube's highest-retention category 2026
✓ Intentional ambiguity ('what I actually did') = mandatory full watch

Risks to manage:

■ Overlaps with Script #3 — do not post same week
■ Ensure the AI 'decisions' are presented as fictional/experiment

SCRIPT — HOOK / BODY / CTA

HOOK

I let AI control every decision in my life for 7 days. Day 1: It made me block my three closest friends. Day 7: I'm \$12,000 richer and I understand why. Here's the decision that broke me — and the one that changed me.

BODY (scene breakdown)

Scene 1 (0-7s): Person on couch, phone in hand — AI app gives instruction: BLOCK THESE THREE CONTACTS. Caption: 'DAY 1: IT KNEW WHO WAS COSTING ME THE MOST.' Scene 2 (7-18s): Empty desk at 5am — AI schedule pinned on wall. 16-hour work blocks. Caption: 'DAY 3: THE SCHEDULE WOULD HAVE BROKEN MOST PEOPLE.' Scene 3 (18-30s): Screen shows income, freelance wins, completed goals. Caption: 'DAY 5: IT STARTED PAYING OFF. BUT I WAS ALONE.' Scene 4 (30-40s): Phone rings — it's one of the blocked contacts. AI says: DO NOT ANSWER. Caption: 'DAY 6: THE DECISION I COULDN'T MAKE.' Scene 5 (40-44s): Bank account: +\$12,000. Empty text thread. Caption: 'WAS GIVING AI CONTROL OF YOUR LIFE WORTH THAT?'

CTA

Comment 'YES' if you'd do this for \$12K. Comment 'NO' if some things aren't worth the money. Watch to the end — I tell you what I actually did.

RUNWAY GEN-4.5 SCENE PROMPTS

Scene 1: Person sitting alone on minimal couch staring at phone, dramatic single window light, dark apartment, cinematic
Scene 2: Desk with productivity schedule pinned to wall, 5am iPhone alarm visible, dim lamp, notebook open, photorealistic

QUANTUM COFFEE ANOMALY

Instagram Reels

15s

Viral Score: 9.0/10 — VERY HIGH

Est. Views: 3M – 8M

~72 credits

VIRAL POTENTIAL ANALYSIS

9.0/10

Why this goes viral:

✓ Timestamp CTA ('7-second mark') = mandatory rewatch loop = 3-5x plays
✓ MIT authority validation + failure = credibility + intrigue stack
✓ Physics violation in mundane setting = cognitive dissonance = share impulse
✓ Pinned comment promise = comment section competition = algo fuel
✓ 15s = near 100% Reels completion rate = highest tier distribution

Risks to manage:

■ Runway must nail the upward coffee physics — test with dry_run first

SCRIPT — HOOK / BODY / CTA

HOOK

This coffee cup violates 3 laws of physics. MIT ran tests for 6 months. They couldn't explain it. Watch what happens at the 7-second mark.

BODY (scene breakdown)

Scene 1 (0-4s): Pristine white table, ordinary ceramic cup of black coffee. Camera settles. Caption: 'MIT THERMODYNAMICS LAB — DOCUMENTING THE ANOMALY.' Scene 2 (4-9s): [THE 7-SECOND MARK] — Coffee begins flowing UPWARD out of the cup, defying gravity, forming a perfect slow-motion arc in mid-air before freezing. Caption: 'THE LIQUID HAS NO REASON TO DO THIS.' Scene 3 (10-14s): Close-up — coffee suspended in air as a perfect sphere, light refracting through it like a lens, perfectly still. Caption: 'FRAME 847: STILL UNEXPLAINED.'

CTA

Drop '■' if you can explain this with physics. Drop '■' if this broke your brain. Most common answer in comments gets pinned.

RUNWAY GEN-4.5 SCENE PROMPTS

Scene 1: Pristine white table top, white ceramic coffee mug, black coffee, clinical laboratory lighting, ultra-sharp macro, hyper-photorealistic

Scene 2: Black coffee flowing upward out of white ceramic cup in slow motion, defying gravity, perfect arc in mid air, laboratory white background, cinematic macro, photorealistic physics simulation

Scene 3: Single sphere of black coffee suspended perfectly in mid-air above white cup, light refracts through liquid sphere, white laboratory background, ultra macro cinematic, crystal clear
